LAW DEPARTMENT.

Baltimore, March 5, 1909.

Gen. Peter Leary, Jr.,
Chairman, Sewerage Commission.

Dear Sir:-

As requested by you, confirming our conversation over the 'phone this morning, I beg to say that Mr. Preston has stated to me that the plans for the foundations of the new pumping station will have to be modified in order to have them conform to the requirements of the New Building Code, in the event that the foundations be carried down to the depths proposed by the Commission.

I simply bring this matter to your attention so that you may lay it before the Chief Engineer.

Very truly yours,

(Signed) Edgar Allan Poe,

City Solicitor.

Mr. Latrobe has informed the Commission that the Building Inspector sent him his credentials at 2 o'clock on the third instant.
