

File No. 10582 Continued.

CORRESPONDENCE.

Butler, agent or representative of the Russel Sage Foundation of New York City, asks if the Department of Health feels it practicable to take action under this law. Will you please inform me whether this law could be enforced by any evidence that this Department should bring before the court. It seems to me that the requirements of the law are not sufficiently definite, and to leave the whole question entirely to the jury as to whether the demand is reasonable or not, makes the law really impracticable.

An early answer will greatly oblige,

Yours respectfully,

(Signed) James Bosley, M. D.

Commissioner of Health.

File No. 10582.

RUSSELL SAGE FOUNDATION

105 EAST 22ND STREET

NEW YORK CITY.

Baltimore, October 11th, 1909.

G. Hampson Jones, M. D.,

Assistant Commissioner of Health,

Department of Public Safety,

Baltimore, Md.

Dear Dr. Jones:-

I am in receipt of your letter giving text of the law requiring suitable seats to be provided. As I remember it, this is the law which is published by the Bureau Labor Statistics, I shall be interested to know what action the Department of Health feels it practicable to take under this law.

With many thanks for your co-operation, I am,

Very truly yours,

(Signed) Elizabeth B. Butler.
