

File No. 10585 Continued.

CORRESPONDENCE.

portions (as defined from time to time by the Engineer in charge of the work) of the sprinkling filter beds being constructed by the New York Continental Jewell Filtration Company at the Sewage Disposal Works on Back River, for the purpose of placing the broken stone under your contract, which is in accordance with paragraph 21, page 10 of the specifications.

Yours truly,

(Signed) Calvin W. Hendrick,  
Chief Engineer.

File No. 10585.

FISHER & CAROZZA,  
BALTIMORE, MARYLAND.

Baltimore, November 3, 1909.

Mr. Calvin W. Hendrick,  
Chief Engineer, Sewerage Commission,  
Baltimore, Md.

Dear Sir:-

3347 We have been unable to build our track along the filter bed recently built by the N. Y. Continental Jewell Filtration Co., because each time we have attempted to do so we have been stopped by the employees of that company. This occurred on October 25th and again on Nov. 1st they removed the track we had laid after our men had left.

Will you kindly instruct us as to what course we shall now pursue in the matter?

Yours truly,

(Signed) Fisher & Carozza.
