

File No. 11224 Continued.

CORRESPONDENCE.

Commission to construct certain manholes to give access to the sewers for purposes of inspection and cleaning, and it may also be necessary to make certain changes in the layout. These matters, however, can best be taken up when the City is ready to take over the drains.

Yours truly,

(Signed) Calvin W. Hendrick,  
Chief Engineer.

File No. 11224.

SEWERAGE COMMISSION  
OF THE CITY OF BALTIMORE  
AMERICAN BUILDING.

Baltimore, April 20th, 1910.

Edgar Allan Poe, Esq.,  
City Solicitor.

Dear Sir:-

8871

I enclose herewith a copy of a letter from the Chief Engineer, dated April 19th, regarding a proposition made by Messrs. P. Flannigan and Son, that certain private drains constructed by them, between Milton avenue and Kenwood avenue, and between McElderry and Fayette streets, should be taken over by the Sewerage Commission and incorporated into the general system of sanitary sewers.

The Commission asks your opinion as to what action it should take, and would like you to frame such an answer as will properly safeguard the interests of the City.

Respectfully,

(Signed) Peter Leary, Jr.,  
Brigadier General, U. S. A.,  
Retired, Chairman.
