gence, in which event it would be for the Jury to determine the City's liability.

Therefore, I suggest that sufficient sums be withheld to cover a possible liability, though I am of the opinion that upon the facts presented thus far, there is no liability either on the part of the contractor or on the part of the City.

Yours truly,

File No. 12485

Baltimore, February 25, 1911.

Calvin W. Hendrick Esq.,  
Chief Engineer,  
Sewerage Commission.

Dear Sir:

I return herewith the Bid of the Wanner Steam & Hot Water Heating Company for installing the water piping and steam heating apparatus in the Sewage Pumping Station.

Although the Bid is signed in an irregular way, it would, nevertheless be binding upon the Bidder. It is not essential that the signatures should appear at the end of the Bid, provided the intention of the Bidder to be bound by his Bid clearly appears from an inspection of the entire Bid. The Bid should, therefore, be considered by the Commission.

Truly yours,

(Signed) Edgar Allan Poe  
City Solicitor
