

File No. 14002

Baltimore, January 31, 1912.

Ezra B. Whitman, Esq.,  
Water Engineer.

Dear Sir:

Yours of the 30th inst., received.

47 Upon looking up the Act, and the provisions of the Charter, I do not believe that you can make a private contract with some outside party to move these boilers, if it is going to cost over \$500. If it is work that you can do yourself by employing day labor, then, with the consent of all the other members of the Water Board, you can do it in that way; but if you have to make a contract with somebody else, who will employ the labor and furnish the equipment, I think you will have to do it by advertisement, even though it should cost the City more.

Yours very truly,

(Signed) S. S. Field,  
City Solicitor.

File No. 14003

Baltimore, January 31, 1912.

George L. Durn, Esq.,  
2239 Eastern Avenue, City.

Dear Sir:

Yours of the 30th inst., asking me to prepare for you an Ordinance to appropriate a portion of the fund derived from dog licenses to provide free medical treatment for persons suffering from dog bites and unable to pay for themselves, received.

I should be very glad to do this for you. I think it is a capital idea.

Very truly yours,

(Signed) S. S. Field,  
City Solicitor.
