File No. 25593

Baltimore, October 27, 1919.

Dr. C. Hampson Jones,
Commissioner of Health.

Dear Sir:

13450.

I have your letter of the 19th instant, enclosing letter from Dr. Marion B. Hopkins of the Bureau of Food and Dairy Inspection, in which he states that when his department revokes milk permits in accordance with Section 55-A of Ordinance #262, for repeated violations of the regulations, it is frequently found that another person, usually a member of the family whose permit has been revoked, makes application for permit to carry on the business. Dr. Hopkins then asks whether or not the department of Health has a right to refuse to grant a permit under these conditions.

Section 55-A of Ordinance #262, approved June 1st, 1917,

provides:

"The Commissioner of Health, upon receipt of such application, shall cause to be investigated the place of business described in such application, and the wagons and other vehicles, if any, intended to be used by such applicant. If such places of business and such wagons and other vehicles are found upon such investigation to be in a sanitary condition and fit for the uses and purposes to which they are intended
