

File No. 36404 Continued

Section 22-F. It was in consideration of this that I requested your Secretary to advise me whether the Board would find such a state of facts as would warrant it in varying the terms of the Ordinance under Section 22-F. If your Board does find such a state of facts, then the restrictions in the Zoning Ordinance are no greater than those of the so-called Mayor's Ordinance, and the earlier Ordinance will control. If, on the other hand, your Board does not find such a state of facts then the Zoning Ordinance by its terms would absolutely prohibit the use of the property as a garage and would control.

Therefore, your Board has the alternative of either dismissing the case for want of jurisdiction or advising the applicant that there is no reason for varying the terms of the Ordinance and that his application must be refused.

Very truly yours,

(Signed) Wirt A. Duvall, Jr.

Deputy City Solicitor.

File No. 36404

Baltimore, October 17, 1924.

Albert G. Towers, Esq.,
Title Building,
Baltimore, Maryland.

Dear Mr. Tower:

I have your letter of October 14th, enclosing a communication from Col. R. E. Longan, Superintendent of Bay View Asylum.

The question you ask is in what manner the name of the institution may be changed.
