Mr. Thomas G. Young
City Collector
Municipal Office Building
Baltimore, Maryland

Dear Mr. Young:

I have your letter of July 31, 1942, enclosing alley paving bills against Mt. St. Joseph's College, 4409 Frederick Avenue. I note your reference to the language of Chapter 354 of the Acts of 1931, now codified as Article 81, Section 7-(26) of the Annotated Code of Maryland (Fleak, 1939), which provides as follows:

"All buildings, equipment and furniture of hospitals, asylums, churches, places of worship, charitable and benevolent institutions, or the grounds appurtenant thereto, in any county, city or incorporated town of this State, shall be exempted from the payment of any assessment for the opening, grading, macadamizing and paving of any road or street in said county, city or incorporated town; and any such assessment now levied against any such property, and not collected, is hereby canceled. Provided that this section shall only apply to Baltimore City."
