Md. Farm speaks out on wheat

UPI) — The Maryland Farm Bureau contends the sale of grain to the Soviet union is good for American farmers and taxpayers and criticizes Longshoremen's refusal to load 9.8 million tons of wheat on to Soviet-bound ships.

* * *

F. Grove Miller, MFB president, also Friday questioned the sincerity of AFL-CIO President George Meany's announcement that the International Longshoremen's Association would not load the grain until assured the grain sale would not adversely effect domestic markets.

* * *

"We strongly suspect that Mr. Meany would be delighted to load Soviet-bound grain, provided the ships were American. To cloak this motive in a spurious concern for the consumer is a demagogue tactic," charged Miller.

* * *

He said talks on labor's effort to bring U.S. Ships a larger share of the shipping market began the same day Meany announced the boycott.

* * *

He said Maryland grain farmers oppose the boycotts and support the sale for economic reasons. Now only is it good business for them but excess grain from this year's record crop would be stored at public expense if not sold abroad.

* * *

"The record harvest of this year is producing approximately 2.14 billion bushels of wheat and 5.85 billion bushels of corn. The normal consumption in the U.S. is about .8 billion bushels of wheat and 2.7 billion bushels of corn," he said.
