IT'S IN THE STARS:

CANCER

Happy birthday Cancer! You were born during the period June 22 to July 23. Your motto is "I feel." Cancerians are endowed with the capacity for intense feelings that may be expressed in a variety of forms and fashions.

Cancer is sometimes referred to as an old shoe because of a strong love for tradition and security. Here is a sign that tends to be most loyal and dependable. Of course, there are exceptions.

But chances are that guy or gal who loves to talk about the way his/her folks did something, or has a compulsion for saving things for that rainy day is a Cancer.

Natives of this sign are more apt to treasure the family and its memories more than other zodiac types. They have great senses of humor and find eating one of their greatest enjoyments.

In a word, Cancer is a passionate sign ruled by the

spiring preachers and dedicated teachers are also Cancerians.

The expression, "the best way to a man's heart is through his stomach," pertains to the typical Cancer type. They love to eat and oddly enough rarely put on excessive weight.

So Cancer women often find their niches in things that smack of the domestic or secure side of life, while Cancer men follow suit.

This is not to say that Cancer is only about matters of the home, but rather to state that security is of constant concern. Cancer is like a fish out of water without it.

In matters of the body, Cancer natives should avoid excessive stress and worry. The physiological results of worry are as potentially detrimental to Cancer as they are to Capricorn.

ASTRO QUALITIES/BLBMENTS

moon. Examples are Bill Cosby and the late Louis Armstrong.

Some say that it's easy to recognize daughters and sons of the moon by their moon-shaped faces. But more definite is a pattern of moodiness.

Cancerian moods can be predicted by phases of the moon. If you're around one long enough, you'll agree. Also, don't let that mild-mannered Cancerian fool you. This native harbors a temper that you'd wish you had never aroused.

Because the moon rules the home and women, Cancer is basically home-oriented and partial to mother. Few Cancerians will allow attacks of any type on mom or their abode. And if it's a romantic mate you seek, try Cancer. Between passion and protectiveness, you'll hardly be able to breathe.

The high degree of sensitivity of Cancerians gives them the basic ingredient for professions that demand insight and creativity. For this reason, social workers, psychologists, personnel workers and artists are often found under this sign. Some of the most in-

tend to be action-oriented and positive. Afflicted, Cancer can be wasteful of time and activities. Otherwise, cardinal signs have the stuff of-leaders and pioneers—the doers of the world.

The water element of Cancer is what gives the emotional, sensitive traits. Caution should be exercised to avoid being over-responsive and tragically moody.

LOVE MATCHES

Astrology is not an absolute science, so don't expect perfection. Use it as a tool in evaluating yourself and those you interact with. All the zodiac signs have qualities of one another that make for a variety of compatibility matches. The following sign love matches are based on general sun sign characteristics to be used only as a guide.

Cancer and Aries

Dashing Aries (March 21-April 20) can be much the same, male or female. Although Cancer may be initially attracted to this sign, long-term relationships often prove disastrous. Cancer's hurt feelings and jealousy are usually the causes.

Cancer and Taurus

Taurus (April 21-May 20) and Cancer combinations make for promising pairs. Both sign types like the home and the kitchen in particular. If Cancer can deal with the stubborn nature of Taurus, and Taurus can deal with the moods of Cancer, all will go well.

Cancer and Gemini

Gemini (May 21-June 21) can have very broad interests—mental and social. Since Cancer tends to be comparatively narrow, conflicts may result. Both sign mates can be moody. This too will require control and understanding.

Cancer and Cancer

Natives of Cancer should do just fine. Bach will understand the moods of the other and find solace in knowing that instinctive goals will mesh.

Cancer and Leo

Leo (July 23-August 22) is passion ate and romantic—a good match for Cancer. As long as Cancer understands Leo's need for praise and homage, both will get along.

Cancer and Virgo

Vir go (August 23-September 22) is known for being highly critical. Depending on the mood, Cancer can roll with the punches. Another point to watch is Virgo's sometimes cold and direct approach to things. Cancer is an emotional sign. This match could work like oil and water.

Cancer and Libra

Libra (September 23-October 22) are both cardinal signs meaning force and strength in their respective natures. The romantic side of Libra may find comfort in the likewise side of Cancer. But Libra may object to the deep moods of Cancer.

Cancer and Scorpio

Scorpio (October 23-November 21) can match the passion and power of Cancer. Both signs enjoy the fruits of security and possession. For these and other reasons, this match has high chances for success.

Cancer and Sagittarius

Sagittarius (November 22-December 21) is a sign that invented the word independence. They must have their freedom. Cancer sees life a bit differently. The chances of this pair making it are slim, depending on the flexibility of either sign.

Cancer and Capricorn

Capricorn (December 22-January 19) is Cancer's astrological opposite. Both are cardinal signs and have complementary characteristics. This pair can easily share their views and approaches to life. Although Capricorn is not the most emotional mate for Cancer, their mutual sense of understanding will far outweigh any differences.

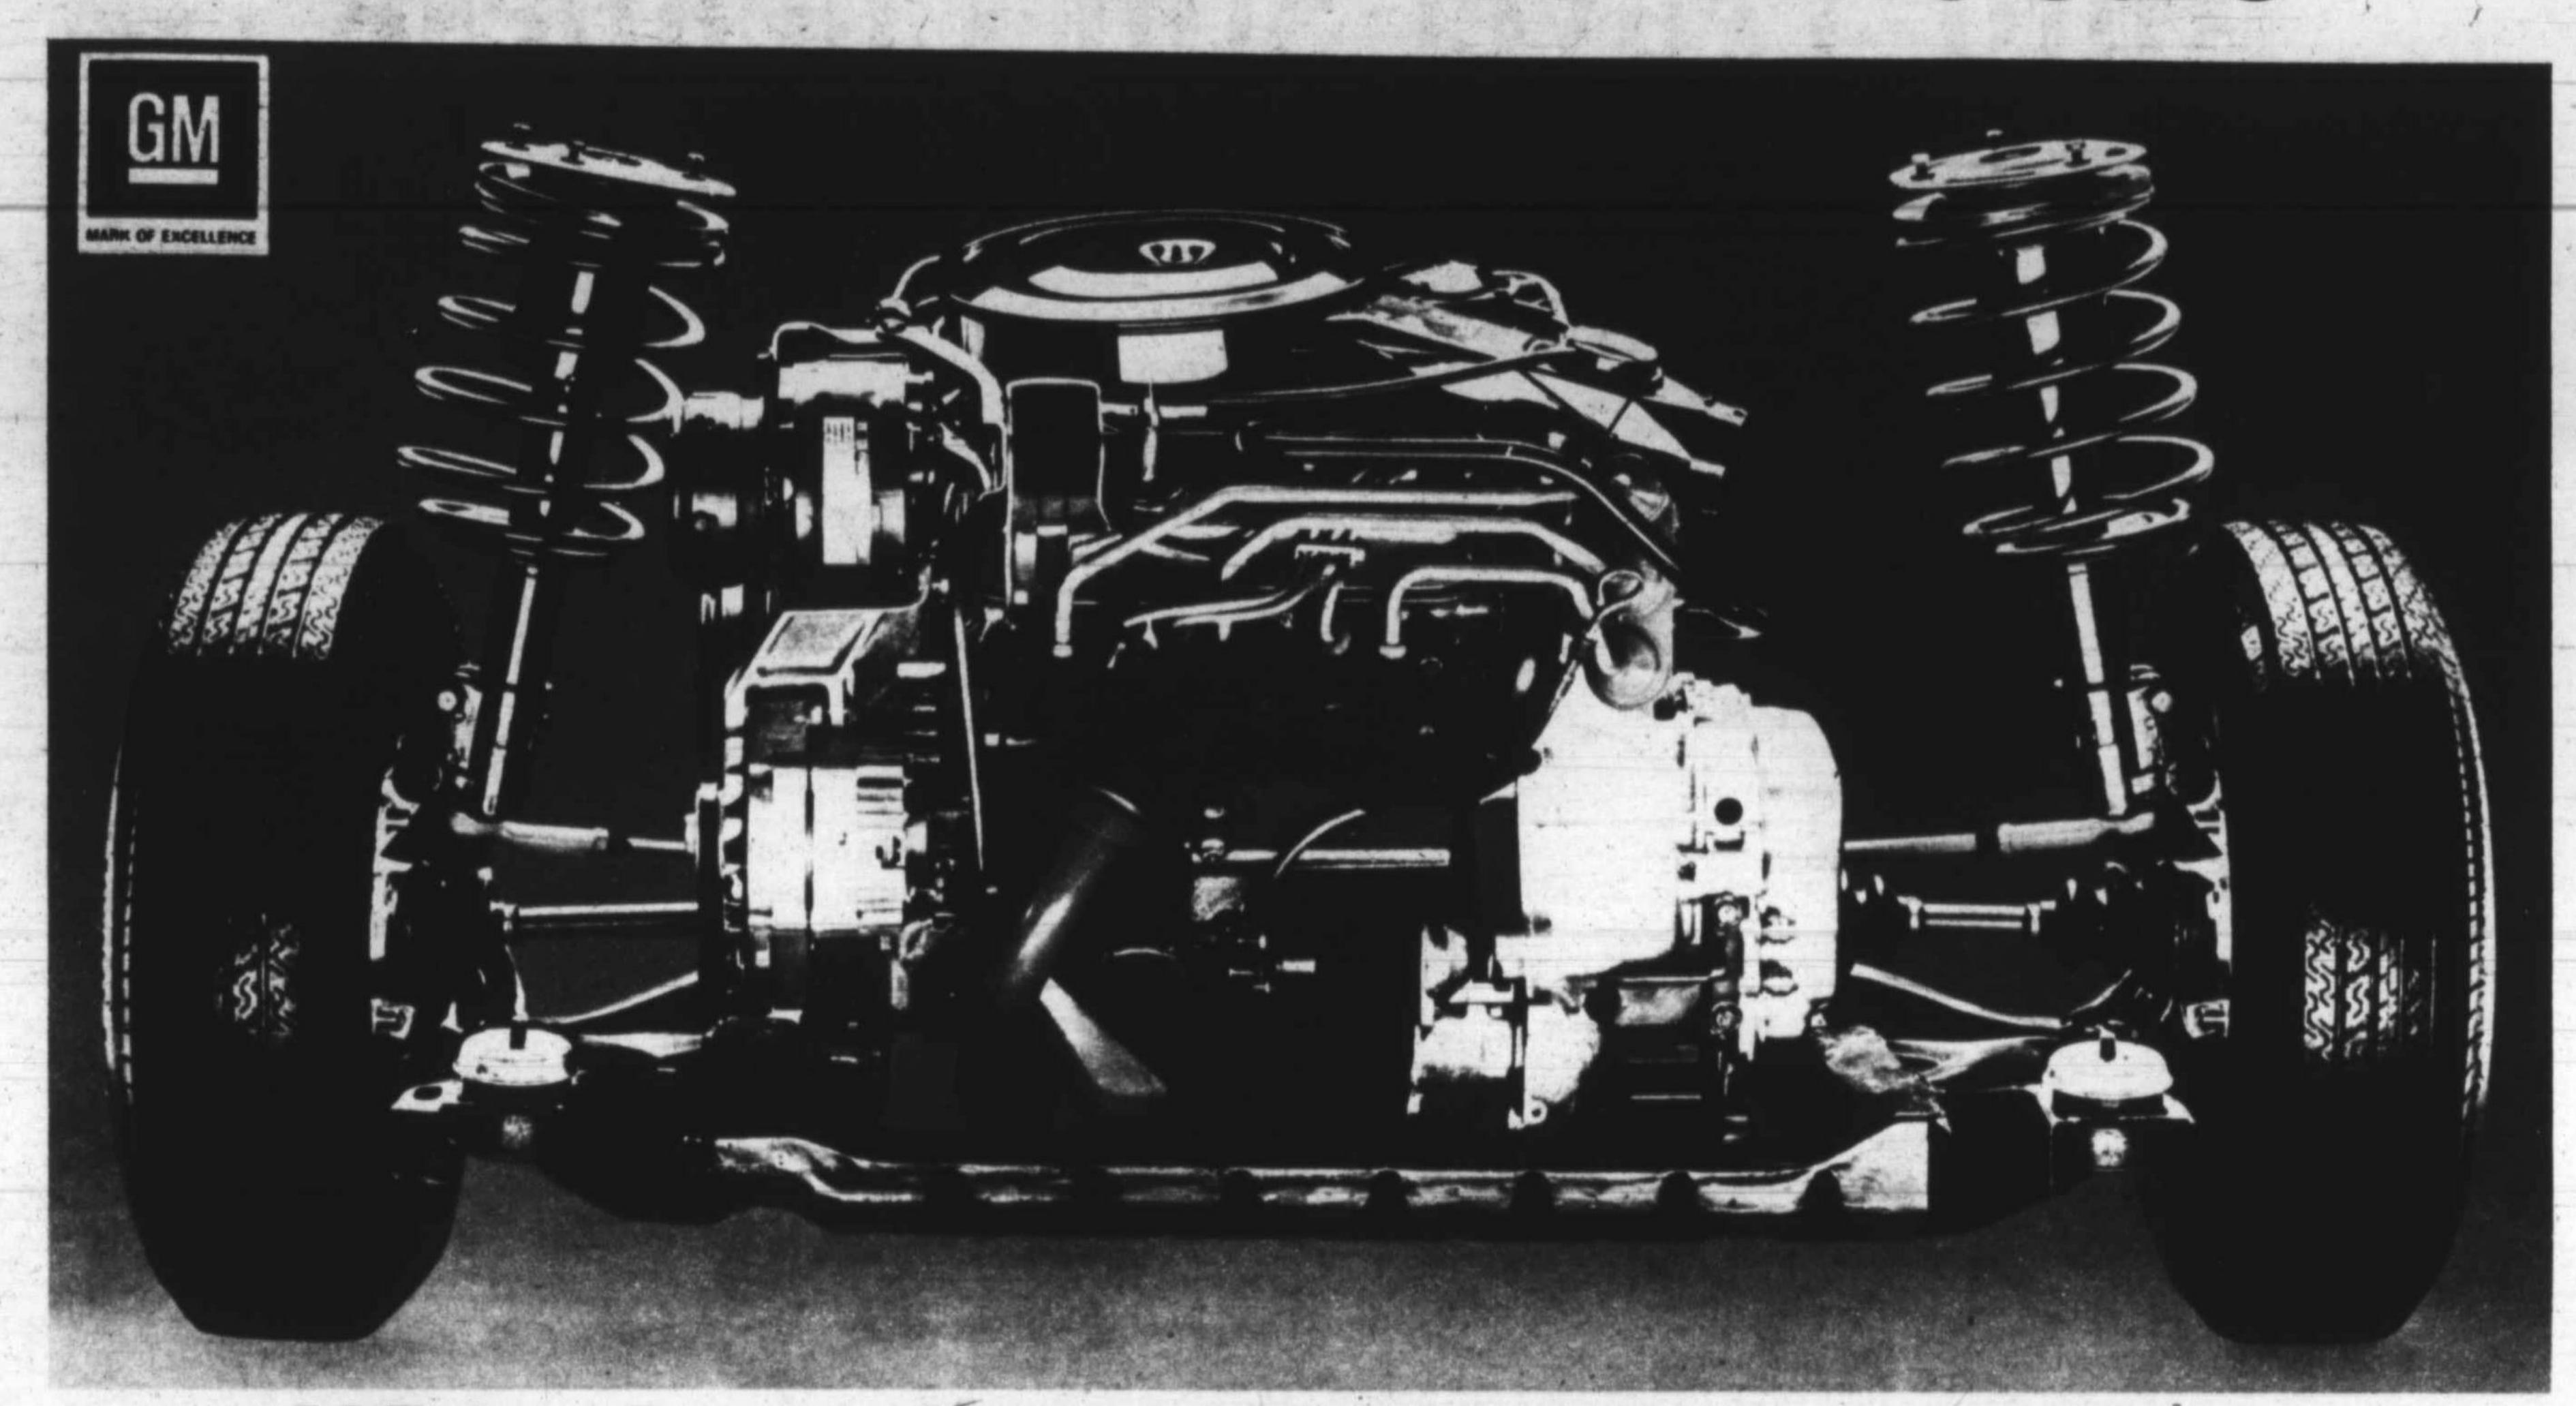

Cancer and Aquarius

Aquarius (January 20-February 18) is much like Sagittarius in a need for freedom. A very conservative Cancer type will do well to shy away from this astro native.

Cancer and Pisces

Pisces (February 19-March 20) is a good match for Cancer. Both are sentimentalists and have their share of moody moments. Thanks to the ability of Pisces to blend to any circumstance, this could be a match made in heaven.

GM's New Front-Wheel-Drive Cars

With a host of standard features including transverse-mounted engine, MacPherson Strut suspension, rack-and-pinion steering, front disc brakes, radial tires and more.

The above photograph contains a remarkable story. It is the heart of the new front-wheel-drive Chevrolet Citation, Pontiac Phoenix, Oldsmobile Omega and Buick Skylark. And it has a number of features that are standard equipment.

Because the engine sits sideways, we can reduce overall length, yet design a car with plenty of room for passengers and luggage. The one you see here is the available V-6, a 4-cylinder engine is standard. (These GM-built engines are produced by various divisions. See your dealer for details.)

MacPherson Strut front suspension.
Helps us design a roomier passenger compartment.

Rack-and-pinion steering. Offers quick, easy response.

Front disc brakes. A new low-drag design with audible wear indicators.

Radial tires. A new design with a special rubber compound to lower rolling resistance even more than "conventional" radials.

Delco Freedom® battery.

Maintenance-free, never needs water.

Maintenance-free wheel bearings.
Completely sealed bearing assemblies are preset for precise clearance and lubed for life.

And more. The aforementioned features are just some of the standard items you get on these exciting new front-wheel-drive cars. You also get others like self-adjusting brakes, carpeted passenger compartment, Body by Fisher construction and many more.

Take a test drive. If you've never driven a car with front-wheel drive before, we're convinced our front-runners for the '80s offer you a great, new and rewarding experience.

If you have driven front-wheeldrive cars before, well—these are about to bring something brand-new to the ball game.
