Although the interest of Links, Inc., is not limited to minority youth, members believe that for the immediate future, their main thrust must continue to be concentrated in this direction.

WHY TIGHTFISTED BUYERS GO FOR DOUBLE-BELTED POLYGLAS:

Because fiberglass belts run smooth, and add muscle to the tread.

Because polyester cord body plies add the resilience needed for big-car riding comfort.

Because the multi-rib tread puts hundreds of biting edges against the pavement, wet or dry, with every turn of the wheel.

Because of the Goodyear signature on the sidewall . . . and the heritage of quality it represents.

If you're tired of paying too much money for too little tire, better shop Goodyear. This Cushion Belt Polyglas tire is one performer that pulls no punches when it comes to value.
