The second secon

on Sears BetaVision VCR

Packed with features such as high-speed BetaScan, freeze frame, up to 5 hours on one cassette.

BetaScan whizzes you forward or backwards at 15-times-normal speed. You cover 30 minutes of action in just 2 minutes. And the speeded-up picture is displayed while you scan, so you can easily locate the exact segment of the recording you want to replay.

What do you do when ABC's Monday Night Football conflicts with your Monday night racquetball? You let Sears BetaVision II/III videocassette recorder "cover"

the game in your absence. Delayed Recording You're due on the court at 8 p.m.—the kickoff time for that other game you don't want to miss. Before leaving the house, you simply pre-set the Beta-Vision's digital clock. Once for the starting time of the game, once again for the estimated finish (or you can simply let the cassette run out). The BetaVision memory locks in both times and automatically starts

and shuts itself off as instructed. Up to 5 Hours on One Cassette

And don't worry about a game going into overtime. When programmed for

Playing Lengths of Series BetaVision Videocassettes L-250 L-500 L-750 L-830

Standard Mode 60 min. 120 min. 180 min. * Long Playing Mode 90 min. 180 min. 270 min. 300 min. *Not recommended for use on Standard Mode.

the long-playing mode, this BetaVision slows its speed to give you 50 percent more programming than on our standard mode. You get up to five full hours of playing time, depending on the length of the Sears BetaVision cassette you use.

High-Speed Scanner

Time to play the game back. BetaVision II/III has faithfully recorded everything, including the halftime show you may prefer to skip. Just hit the BetaScan button and it zips you through 15 minutes of halftime hoopla in just 60 seconds. That's 15-times-normal speed.

BetaVision II/III also lets you view as you scan. It keeps the speeded-up picture sharp enough for you to easily

follow the action. You'll be able to see that key pass rush shaping up in time to revert to normal speed.

Freeze Frame/Edit by Remote Control During playback, your plug-in remote control unit lets you stop the action, "freeze framing" anything from a golfer in midswing to a gymnast in midair. While recording, the same remote control unit stops the cassette, editing out unwanted material. Restart it, and recording resumes with no tell-tale "breaks" in the finished tape.

Regular \$895. Now only \$795. Nov. 28-Dec. 24, 1980

BetaVision II/III is on sale in most larger Sears retail stores for just \$795—a full \$100 below the regular price. Ask about Sears convenient credit plans. And remember, efficient Sears service is only a phone call away.

BetaVision is designed to expand opportunities for your personal in-home TV viewing and not for any usage which might violate copyright laws. Price and date may vary in Alaska and Hawaii. This advertised item is readily available for sale as advertised.

"This is the minimum savings nationally. Regular prices vary in some markets.
