Unlike the more popular Datsun, the

According to Consumer Report, the comfort and convenience of the Datsun 310 is plagued by low front seat cushions and tight leg room. The back

seat is equally as uncomfortable, due in part to the rumbling felt during an average ride. On the other hand, Consumer Report found the Datsun 310 to have a very low predicted repair incidence. It also starts up quickly and has quick steering response.

The Datsun 310 shares the reputation of the other Datsuns. It's mileage rate usually runs in the high twenties in the city, and the thirties on the highway.

For small car economy, the Datsun 310 is a good bet.
