1983's Best Bets

By Carl Matthews

1983 has ended, and so, as we look forward to the coming new year, it's time to review what we've learned this past year—and in the world of R&B music on records, there's a lot to look back on.

Everybody has their own personal list of their favorite records of 1983, and of course, I've got mine, too. Perhaps you've read other columns by writers year. The way I see it, picking five or ten records for an entire year is very difficult when there are so many artists, so many recordings, so many songs to choose

As I try to decide what my top favorites in 1983 were, one realization comes to mind: after I list my 1983

favorites today, I may decide tomorrow that one of those favorites doesn't really belong on the list.

So, my friends, what I have decided to do is list five albums I had fun with in 1983. Now actually, I don't listen to heard the title cut, I was hooked. entire albums, just a whole bunch of Baltimore should be proud of these songs. Nevertheless, here is my list of guys. five albums, in no particular order.

. "COMPUTER GAMES" - George Clinton (Capital). Nabady produces giving you their top ten favorites of the records like this man. This album yielded a big number one R&B hit. It was also fun to see the video for "Atomic Dog." 'f you've been a Parliament or Funkadelic fan you had to have this one. Where does he get these futuristic bow wows anyway?

"IN THE HEART" - Kool And The Gang (De-Lite). I know this album just came out, but it can't miss with "Joanna" already in the top 3. As I've said before, they're more commercial sound- thought they did a pretty good job on ing than ever, but I enjoyed this LP much this LP which includes the single "Burnmore than "As One." The hottest "Kool" ing Down The House." Great keyboard stuff yet.

. "HERE'S TO YOU" - The Tones (Criminal). I'm sure glad the Softones decided to change their image, 'cause there's some real talent recorded for posterity in these grooves. When I first

 "DUCK ROCK" — Malcolm McLaren (Island). There's one in every crowd. Sooner or later, someone had to come out with a record so odd and crazy l couldn't believe it. This album had turntable scratching, DJ talk between every cut, square dance calling.... Most artists wouldn't dare try to put stuff like this on their albums. I thought it was kind of

• "SPEAKING IN TONGUES" - Talking Heads (Sire). They just chugged along with their funky rhythms, and I

Monalisa Young 'Knife'

This new album by Monalisa Young, "Knife," is a chance for you folks who grew up with the Motown sound to reminisce. On this LP, which by the way was released on Motown, Monalisa per-Motown classics as "I'll Be There." "Superstition," "Don't Mess With Bill," "Dancing Machine" and "Never Can Say

You may have heard Monalisa, as part of the girl group St. Tropez, on the provocative 1981 single "Femmes Hurry Boy."

Fatales." She was also on 1979's "Love And Desire," a disco hit for the group

On this album, the disco fever of the late '70s lives again. However, I am sure that Miss Young is capable of doing better than the forgettable noise recorded on this album. The arrangements just ramble on without making a point. There's too much slickness here.

Also included: "Knife," "Bust My Bubble," "Sweet Remedy," and "You Got To
