

No. 4927. Equity

part of said \$300 note, or the interest either to Mr. Charles C. Eichelberger or to your mother (Except to)

Ques 7<sup>th</sup> Ex

No Sir I did not.

What was your understanding and your mother so far as you know her, as to your repaying her said sum of money (Except to).

Ans

Well I started to farm and my mother promised that she would start me when I wished to start to farm and that she would advance me the money if I would agree to take it off after her death. Then afterwards I left home and worked for the Standard Oil Co. and when I came back to Conneautburg I reminded her of this as I wished to start farming there. She said she didn't have the money but she would try to borrow it for me so that I saw Mr. Eichelberger about it, and he said I could get it. So about a week afterwards we came in there and my mother and I gave him this note and received the money.
