I don't think that I stated that he borrowed \$1800= to go into the carriage business. I said that he told me he borrowed \$1800= at the time he went into the carriage business.

Do you know what became of the balance amounting to about \$1000=

Ans.

The most of it <sup>\$500=</sup> was used to pay off a note at the First National Bank of \$550= which he owed of the remainder he paid some of his and my bills amounting to \$76<sup>29</sup>/<sub>100</sub> he gave me money and bought for cash things necessary for me at school certain amounts which I can not recall, and on the 2nd day of January 1901, it appears that he deposited the balance of which he had no immediate use of \$160= to his credit in the 14th National Bank.
