

No. 8160. Equity.

the hands of tenants without careful management which I am unable to give it.

I believe it would be beneficial to myself and children to have the proceeds arising from its sale invested in some mortgage or other safe investment which would give me a regular income for the use of myself and children which is very desirable.

Invested as it is, the income is very uncertain and is dependent upon the properties being occupied and my ability to collect the rent therefrom which is very uncertain with that class of property and it would be very annoying to me.
