

No 8369. Equity

the balance of the farm on the east side of the public road leading from the Urbana Turnpike to the Jjaminee road and has no building on it. It was purchased after the farm had been bought and lies separate from it. The farm will be of a more desirable size for cultivation without these 83 acres than with them because they make the farm rather too large for economical cultivation.

The owners who are ladies have to have the farm cultivated for them and the cultivation depends on me. I am not able to get the necessary help on the farm and in the house. These 83 acres could not be divided without loss or injury and would sell better as a whole. I know a very advantageous price can be obtained for the 83 Acres at private sale. My wife and her sister and one of her children have all agreed to sell these 83 acres at private sale for \$60= per acre to Mrs. Mary L. Markell, which I think is a very fair price for said land.

To the Good Sub. by the Examiner,

Nothing further.
