

740 8377. Equity.

Ans. It has not, it is running in the opposite direction.

22x.

The reason for that is that the property in that direction is being held for higher prices & - and has not been for sale.

Ans. No Sir, it is not:-

I know that when Mr. Karp annexed the land between the house and lot in question and this field, he offered building lots for sale at the same price, they were selling at the lower end of town, and they were not taken.

23x.

What did he ask for these lots? -

Ans. from \$200 - to \$250 each.

24x.

What was the size of these lots? -

Ans. I think 50 x 150 fronting along the street.

25x.

How many lots of that size would be contained in the field in question? -

Ans. I do not know.

26x.

Isn't it true that the reason Mr. Karp failed to sell his lots, it is because the lack of access to the rear of them? -

Ans. I hardly think so, because the lots sold at the other end of town had no access to the rear - The reason I know, is because Mr. Karp, asked me to try to sell them for him.

27x.

How many lots were there? -

Ans. About 7, and they are more desirable than this field.

Re - Birch.

1x.

This field mentioned in these proceedings which you have spoken of as lying north of the U.B. Church, how is it situated with reference to the grave yard? -

Ans. The public road leading to Church Hill divides the country from this field, or Grave Yard? -

Ans. The public road leading to Church Hill divides the country from the farm -

2 Ac.

The field in these proceedings that you have spoken of as lying outside the Corporation limits
