

NO 8379 Equity.

the road between me & Mr. Tom Grossnickle down along middle track. I made half & Mr. Grossnickle made the other half. he wanted to pasture on the other side. I made some fencing on the side joining Mr. Luther Pook with the best of the old rails. Mr. Grossnickle said it had not been made for so long. I lined it. I had the Church field fence repaired some. My husband gave me some posts but not like it should have been. I lined that field & named it.

16th.

What repairs are needed at present to those three properties (except to)

Ans. The house needs painting and the portico is bad at the roof, a mechanic told me that it could not be repaired. He did not think it could. The house roof will do yet awhile. It needs a new pump. The wash house needs a new floor, new roof. The granary & buggy house needs a new roof, and new doors especially the one. The chicken house roof is bad, and the barn roof is bad. I spoke to parties about repairing it, and they did not think it could be repaired, the barn ought to be repaired, and white washed, and the stock window need painting, and the linton needs some repairing. The fence is bad, the fencing around the Church field is bad.

17th.

Have you made any estimate as to the cost of these repairs? (Excepted)

Ans.

To some extent. It would take at least \$400. to make these repairs. I don't think I could do it for that.

18th.

What amount of money have you expended on these properties since the death of Aunt Lydia Trutzaker (Excepted).

Ans. Two hundred and twenty three dollars, not including what my husband did and gave me, and not including this years taxes, and not what I did. I bought the paint and did the painting spoken of before and I loaded the hands for making.

19th

Does the \$223 include the taxes and insurance you paid.

Ans. Yes Sir, except this years taxes meaning the taxes for 1908, which I have paid, but not included in the Bill of \$223. The taxes for 1908 were \$19.26

20th

What amount of income have you received from this
