

NO 8017. Equity.

years and worked for him as one of the family. She cut off Corn Shelled Corn and did every thing she could and she has never been compensated for her services. I never heard my father say what amount she should be paid for her services, but I did hear him say on more than one occasion that she should have something. I consider the claim a reasonable one, and if the estate were able to pay it, she ought to have a great deal more.

Q. Look at Exhibit No. 3. now shown you and state what it is?

A. I look at Exhibit No. 3. and it is a claim of my brother, Tilghman Alexander, against my father's estate. I know that my brother did a great deal of work for my father, soon after he was married and moved away from home and I heard him say only several months before his death to my brother Tilghman, while residing at his home near Burkittsville, that he wanted him to be paid for the services he was rendering and I consider the amount of the claim \$200.00 as a fair and reasonable one in view of the work which my brother has done for my father.

Q. You have heard the testimony of your mother Maria Alexander, relative to the devisees or legatees, named in your father's Will. Please state whether you have knowledge of the whereabouts of these persons and whether your mother has completely given the names and addresses of these different parties?

A. I have heard the testimony of my mother and she has given the names and addresses of these different parties?

A. I have heard the testimony of my mother and she has given the names of the legatees and devisees under the will of my father Ormelly.

I know that parties are personally and have knowledge of their whereabouts.

To the General Interrogatory.

A. Nothing further.
