

Advantage of all the parties interested to have
 the same sold for the reason that the
 buildings are becoming depreciated in
 value for the want of proper repairs
 and attention and the lands are
 depreciating in value by reason of it
 being allowed to grow up in weeds and
 wild brush, such as locusts &c and in a few
 years it would require almost a new
 clearing to reclaim it. The fences
 are also becoming dilapidated from
 age and the want of repairs and
 renewals. And for want of proper
 care and cultivation, the place is not produ-
 cing an income at all adequate to its
 capacity.
