

A No, no cash at all.

Q How about the taxes and water rent and insurance and those things; have they been paid or not?

A Nothing has been paid. They are all piled up.

Q How about the money due for your mother's care, doctors bills and things of that nature?

A There's been nothing paid since December. Everything is laying there.

Q And at this time you have no money to pay them?

A That's right.

Q You heard Mr. Bowlus describe the condition of those properties; would you say he is right or wrong in his description?

A He is right.

Q In your opinion will it or will it not be to the best interests of your mother, the Incompetent, to sell and dispose of the real estate at this time?

A It would be to her interest to get the money and have it in the bank for her use.
