

Youtare a carpenter by trade?

Yes I am.

What would be your estimate as to a fair value of the property?

I would say about \$1500.00 to \$1700.00.

Is the real estate susceptible to division among the parties entitled without loss or damage?

No there would be no way to divide it.

Would it be to the best advantage that the said property be sold and the proceeds divided among the parties at interest according to their respective rights.

It certainly would be as I said before the property is running down every day and that is about the only thing we can do.

To the general interrogatory: That's all.

Lewis R. Hunt.
