

have assumed we had an old turnpike of 66 feet width. Which there again would be 33 feet.

Q. Where do you get your 66 feet width for the turnpike?

A. I couldn't quote a description. Just based on experience of a good many of these old turnpike roads.

Q. In Baltimore County they were 66 feet.

A. Right.

Q. But west of Frederick there is nothing to your knowledge, is there, to show it is 66 feet.

A. I couldn't quote any description or any source.

Q. Why couldn't you draw that line 8 or 10 or 12 feet north or at least to the south boundary of the road.

A. Well, I wouldn't prefer to ignore the present State Roads plats on record.

Q. They got nothing from Mrs. Summers by that plat, did they?

A. I don't recall that Mrs. Summers made any written conveyance to them.

Q. You searched that record, didn't you?

A. I don't recall that I checked that.

Q. Did you go over the land records in Frederick County to try to find an actual description of the lines of the road so that you could determine with exactness whether or not it goes through the house?

A. I didn't, no, sir.

Q. You simply took the State Roads plat and relied on that?

A. I did.

Q. That's all.

JOHN D. WHITE, a witness of lawful age, first being duly sworn, testified as follows:

MR. NEWMAN:

Q. Tell us your name, age, residence and occupation.

A. John D. White, age 36, I live at 300 Upper College Terrace and I am employed at Fort Detrick.

Q. Dr. White, you are one of the parties Defendant in this proceeding, are you not?

A. Yes.

Q. I show you now Exhibit A filed with the bill and ask you if that is a copy of the contract which you signed to purchase the land in question?

A. It is.
