Q In the early stages of her illness she was hospitalized for quite a while?

A A little over five months.

Q And you have spent during this illness of your sister a total of $32,598.85?

A That's right.

Q Dr. Martin, I believe, has been the physician for her?

A Yes, Dr. Martin.

Q And you have filed with these proceedings certificates of two physicians setting forth the nature of the incompetency of your sister, is that right?

A Yes.

Q And do you believe it would be for the best interests and advantage of your sister that a committee be appointed to manage the property and affairs of your sister?

A Yes, sir, I do.

THE COURT: What is the amount, now?

MR. OFFUTT: The amount of the real estate - the equity in the real estate is $24,500, half of which she owns, which would be $12,225 - that would be the record interest. Against that, of course, she has expended a lot of her money.

THE COURT: What does she have in stocks and bonds and cash?

MR. OFFUTT: We have the bonds in cash and some stock.

THE COURT: What do you have now?

MISS YOUNG: We don't have any cash.

THE COURT: What do you have in stocks and bonds?

MISS YOUNG: We don't have any stocks. I have one sugar stock in Cuba. That is no good. The real estate is all we have.

THE COURT: And we are going to ask for the sale of that later. So I guess at present it would be the current income of $221 a month.

MISS YOUNG: That is all expended on her.
