

A You mean anyone in it?

Q What is being done with it?

A It is just sitting there vacant, which isn't too good. But that is the way it is right now.

Q This joint account, was that your mother's money she put in your name for convenience?

A Yes, sir.

Q And you used it for her to pay her bills?

A Yes, sir, as I pay bills out, which I had to take some out and put over in a checking account for the hospital bill the other week, I draw the check and she has that record and we have them to look it. But, as I say, it isn't that I want it, or not my brothers, but we do want her - she has diabetes, which requires hospitalization, and she said last night she may go to Fahrney-Keedy if they would accept her over there, which I would like to see her go there, and as long as she is ambulatory and able to take care of herself the rates are \$100.00 a month, and if she would have hospitalization they have an infirmary over there, then the rates are higher, and we feel this would probably with the real estate and what she has in bank would probably see Mother through.

Q If she would go into that Home do they do as some Homes do - require them to turn all assets over to them?

A That is up to the individual. They will take it that way, yes. They have I guess a chart set up as to a person's life expectancy, and I think they require a certain amount, but if you go in on a monthly basis I say it is \$100.00 a month, or \$175.00 if it is infirmary.

Q With this home only worth - what did you say it is worth - \$6,000.00 - how would your mother be supported?

A You mean--

Q There wouldn't be enough income from an investment standpoint to take care of her?

A She gets around \$60.00 Social Security a month, and we
