WESTMINSTER, April 11.

"HIS Day his Majefty came to the Houfe of Peers: and the Commons being come thi-ther, his Majefly was pleafed to give his Royal Affent to,

" An Act for raising a certain Sum of Money, by Loans or Exchequer Bills, for the Service of the Year One Thoufand Seven Hundred and Sixty-fix.

"An Act for repealing the Duties granted upon Cyder and Perry, by an Act made in the Third Year of his prefent Majefly's Reign; and for granting other Duties on Cyder and Perry in lieu thereof; and for more effectually fecuring the Duties on Cyder and Perry, imposed by feveral former Acts.

And to feveral Road, and 17 Private Bills.

LONDON. April 3. It is faid that the Parliament will not Rife till

the latter End of June.

We hear the Sum of 1,500,000 l. is agreed to be raifed, at 3 per Cent, in order to pay off near that Sum of the outflanding Navy Bills, which now carry 4 per Cent.--900,000 l. of the faid Sum is to be by Annuities, and 600,000 l. by Way of Lottery. The Whole to bear Interest from Christmas last ; and it is faid Three great Houses in the City have agreed to advance the Money. April 8. The Right Hon. Mr. Pitt is at prefent

confined to his Bed, at Hayes, by a fevere fit of the Gout; and it is certain, that as foon as he is able to move, he will retire to Pynient in Somerfetfhire.

Their Royal Highnesses the Prince of Wales, and Prince Frederick, are perfectly recovered of the Small-Pox, and Yefferday took an airing. We have it from undoubted Authority, that an

Attempt has lately been made to affaffinate General de Paoli. This dark Enterprize was to have been effected by a Genoefe Officer. He has however been discovered, and cut to Pieces by the Corfican Militia, who came up with him in the Woods, to which he had retreated.

They write from Port Glafgow, that Twentyfeven decked Veffels are fitting out there for the Cod Fishery this Summer on the great Western Bank of St Kilda, which are to carry out Stages, for their being cured on the Island. They write from Gibraltar, that fince the late

Storm, the Mountain is found to be impregnated with Mineral Ores, Part of which had been washed down by the Force of the Torrent from above.

Catherine Ogilvie, who was convicted at Edinburgh of Incess, and poisoning her Husband, but her Sentence respited on Account of her Pregnancy, and who, about Three Weeks ago, was dc-livered of a Child in Prifon, and was to have received Sentence of Death on Monday the 17th ult. made her Efcape out of Prifon on Saturday the 15th ult. about Seven o'Clock in the Evening; her Escape was not discovered or made known to the Magistrates until the next Day, between One and Two in the Afternoon, when a Search was imme-diately made through the City, and a Meffenger dispatched to endeavour to trace, and, if poslible, overtake her on the London Road; but all the Intelligence he could receive was, that a young Gentleman, very thin and fickly, muffled up in a Great Coat, and attended by a Servant, had paf-fed through Haddington on Saturday at Midnight, and had paffed on, with Four Horfes, Day and Night, from Stage to Stage, towards London. His Majefty has offered One Hundred Guineas for apprehending her, and the Mugistrates of Edin-burgh have also offered One Hundred Guineas Reward for apprehending her.

We hear that the Sheathing of Ships Bottoms with Cedar Plank, having lately been found very beneficial in preferving them from being Honey-omb'd, effectially in the Weft Indies, all Ships of War ordered on that Station, will be fheathed for the future in that Manner; which, it is thought, will be a great Saving to the Navy.

It is faid a noble Earl, pretty far advanced in Years, and who at prefent enjoys a high Poft in the Administration, has lately had an Apoplectic Fit. A Whifper is industriously circulated at the Weft

End of the Town, that a great Commoner intends to appropriate the whole Amount of his Penfion, towards establishing an Academy for the Instruction of Youth, in the feveral Branches of Civil Government. April 16. We are informed that a Congress is

to be held this Summer at Piacentia, where the Prefents from England will be diffributed to the Chiefs of the Labrador Indians, and a Plan agreed on for establishing a very beneficial Fur Trade. The Right Honbie Earl Temple, and Mr. Pitt,

are faid now to be reconciled.

[A particular Account of the Misfortune of the Sloop Paggy, Capt. Harrilon, bound from Fyal, to New York, mention'd in the MARYLAND GAZETTE, Nº 1081. "On the 9th of Nov. in Lat. 39. 10. and

Long. 32. he met with a very heavy Gale of Wind, which carried away all his Sails, and tore his Rigging to Pieces. Being in this milerable Situation, he then put the Sloop's Company to an Allowance; that on the 25th Day of Dec. all their Stock of Provisions was quite exhaused; they were then obliged to kill what living Creatures they had on Board, which were Two Pair of Pidgeons, a Dog, and a Cat, which ferved them for that Day and the Day following; they afterwards fed Two Days on Barnacies, which they took from the Sloop's Bottom, From the 28th of Dec. until the 9th of Jan. they had nothing to fublift on; and being almost familihed with Hunger. It was refolved among the Sloop's Crew to caft Lots which of them fhould be killed: They accordingly drew Lots, and it happened to fall on a Negro Man

whom they had on board, and he was immediately killed, whom they fed on for Seven Days; and from the 16th of jam until the 20th, they had nothing to live on, when they refolved a fecond Time to caft Lots for another Man to be killed, the Lot fell on a Foremast Man, whom they allowed Twenty-four Hours to prepare for Death ; but on the 30th Day in the Morning (which was the Day he was to be killed) they observed a Sail at some Diffance; but having no Canvats to fpread, were unable to make towards her : but the Ship observing their Diffress, flood for them, and hoifled out her Boat and took them on board. She proved to be the Sufannah of London, Capt. Thomas Evers, from Virginia, who behaved to Capt. Harrifon and his diffrested Crew with great Kindnefs and Humanity. It must be observed that Capt. Harrison had not the least Food for Fortytwo Days, as he would rather have choie to die, two bays, as in the term and the Negro. One of the Sloop's Company died raving Mad, occasioned, as they imagined, by eating the Negro's Flefh raw. The other poor Fellow whole Lot it was to have died (had not Providence fent Capt. Evers in their Way) had been out of his Senfes ever fince his Lot was drawn. The Mate is dead fince his Arrival at Dartmouth, and another of them is now bound to Bofton, which he fell in with on the 26th of Dec. who promifed to fupply them with fome Provisions; but inftead of doing fo, immediately made Sail sgain, without giving them the leaft Morfel of any Thing; and on that fame Day they were obliged to eat Part of the Cat and Dog which they killed."

BOSTON, May 22.

Account of the Rejucing Laft Monday, on the Repeal of the STAMPACT. At One o'Clock the Cafile and Batteries, and

Train of Artillery fired a royal Salute; and the Afternoon was tpent in Mirth and Jolhy _____in the Evening the whole Town was beautifully tiluminated :--On the Common the Sons of Liberty erected a magnificent Pyramid, illuminated with 280 Lamps : The four upper Stories of which were ornamented with the Figures of their Majeflies, and tourseen of the worthy Patriots who have diffinguished themselves by their Love of Liberty.

On the Top of the Pyramid was fixed a round Box of Fireworks horizontally. About One Hundred Yards from the Pyramid the Sons of Liberty erefled a Stage, for the Exhibition of their Fireworks, near the Work Houfe, in the lower Room of which they entertained the Gentlemen of the Town. John Hancock, Efq; who gave a grand and elegant Entertainment to the genteel Part of the Town, and treated the Populace with a Pipe of Madeira Wine, erected at the Front of his Houfe, which was magnificently illuminated, a Stage for the Exhibition of his Fireworks, which was to answer those of the Sons of Liberty : At Dufk the Scene opened by the Difcharge of twelve Rockets from each Stage; after which the Figures on the Pyramid were uncovered, making a beautiful Appearance—To give a Defcription of the great Variety of Fireworks exhibited from this Time till Eleven o'Clock, would be endlefs-the Air was filled with Rockets -the Ground with Bee hives and Serpents-and the two Stages with Wheels of Fireworks, of vathe we deget and which so is neworks, or va-rious Sorts. Mr. Otis, and fome other Gentle-men, who lived near the Common, kept open Houfe, the whole Evening, which was very plea-fant; the Multitude of Gentlemen and Ladies, who were continually paffing from one Place to another, added much to the Brilliancy of the Night : At Eleven o'Clock the Signal being given by a Dicharge of 21 Rockets, the horizontal Wheel on the Top of the Pyramid or Obelifk was played off, ending in the Difcharge of 16 Dozen of Serpents in the Air, which concluded the Shew. To the Honour of the Sons of Liberty, we can with Pleafure inform the World, that every Thing was conducted with the utmost Decency and good Order, not a Reflection caft on any Character, nor the leaft Diforder during the whole Scene.
