Cap^t Ladd Sent from the Lower house returns the Articles of Peace made with the Pisscattaway Indians &^t Anno 1666 and Confirmed 1668 which having Delivered into this house he Returns—

Taken into Consideration by this house the Vote of the Lower house May the 11th concerning the Indian Affairs which was Ordered to be read and the Answer of this house thereto Drawn up as foll: Viz^t—

Upper house May 12th 1682:

By the first Article of the Advice of the Lower house May the 8th Our Agents to New York are to endeavour to make peace for the Pisscattaway Indians as well as Ourselves, and in that Lukewarm Indifferency they Leave that Advice or Vote by their paper of 11th Instant—

By the 3^d Article of the Advice May the 8th In case the Northern Indians make any inroad or Invasion or (in the Disjunctive) offer any Violence &c: to any Inhabitants of this Province, then so soon and as Often as his Lordship Shall think fitt he shall Supply the Pisscattaway Indians with Arms &c and Men in Order to Our and their Defence—

So that if Our Agents make peace for us at New York and leave out the Pisscattaways &^t and immediately after their return the Northern Indians make an Inroad into this Province, his Lordship must either furnish Arms and Men to Pisscattaway, and So break peace with the Northern Indians again, or must deny Arms and Men to the Pisscattaways contrary to their own Advice 8th May and so break Articles with the Pisscattaways, and by that force them to Submitt to the Northern Indians, Show Ourselves to the Eastern Shore Indians faithless and put them upon like Submissions, and then Leave ourselves open to all Indians without Guard—
