[T. Gantt to Jenifer.]

Honored Sir: M^r Thomas N. Stockett being desirous of being appointed assistant Surgeon, applied to me for a Recommendation concerning his medical knowledge; having lived with M^r Stockett for four or five years past, the greater part of which time he applied himself to the study of Phisick; and since my leaving that place, have had frequent opportunities of being acquainted with his method of practice; think him sufficiently qualified to act in that character should you think proper to appoint him.

Sept. 19th 1776.

[Sim to Council.]

Gentlemen. Prince George's County Sep^t 19th 1776.
In compliance with a resolve of Convention of the 6th Inst and sent me, I have recommended the Bearer Cap^t Levin Covington to command the company to be raised in this county, and I have also recommended the other three commissioned officers, who are all very agreable to the people & are now engaged in recruiting and I flatter we shall be able in a very short time to compleat the company within my district, but as nothing effectual can be done without having both the Bounty and advance money in hand, Cap^t Covington now waits on you for it, which I hope will be furnished him. As the guns are to be furnished for this company it will be absolutely necessary the money for this purpose should be also sent down immediately

[Wooton to Council.]

Gentlemen: You have recommended by sundry the Inhabitants of this County Mess^{rs} George Beall & Hezekiah Magruder for Inspectors. These gentlemen you may be assured will meet the general approbation of the people, from which principle alone I take the liberty to recommend them.

I am Gent your most obed^t Serv^t
T. Strigg Wooton.
