Proceed to read the Bills brought hither yesterday by M^r Dent viz^t

The Act Ascertainning the Commissioners Expences in the Provincial and County Courts (Remark) that the Justices of the Provincial Court though of the Council) if they appear at Courts to Officiate as Justices Ought to have the same Allowance with the rest as doing the same Duty and living at a Great distance

The Supplementary Act to the Act for the Annual Revenue &c^a Referred to the Consideration of the Board (Remark viz^t) this Act to Continue for three years certain without Reference to the next Assembly and to Commence from the publication of the Act

The Act for setling Naval Officers Fees within this Province (remark viz^t) the fees setled by this Act seem very unequal and disproportionable as to the different Burden of the Ships and it is therefore rather proposed that the same method be taken here as in Virginia that all Masters or others therein Concerned may be at Certainty in both Governments so near Adjacent

The Act ascertainning what Laws are repealed within this Province (remark viz^t) for the better and Greater Certainty of what Laws are in force and what not It is thought more proper to Appeale Annul Abrogate and make void all Laws in General heretofore made in this Province except what upon the Review of the Body of those Laws this present Sessions have deemed fit and Convenient for the good Government of this Province

Brought from the House by M^r Wynn several Bills which he presents to the Board viz^t

An Act of Recognition &c^a (Endorsed) June the third 1692 Read 1st Time
