Sir

Our Commissioners having returned from York Town without being able to do any thing effectual in the Business they went on, there is now no Probability of a Regulation of Prices being made. Sixty five Pounds a Ton is certainly a very high Price for Hemp at Frederick Town, but we must have Cordage, and wish you to get supplied with ten Tons of Hemp and to work it up as quick as you can. The Governor and Council having ordered the principal Part of the Powder in the Magazine kept by you to Frederick Town, and a good many Waggon being expected down for the Removal of it, you will deliver to each a Load as they apply to you, taking a Receipt for the Casks delivered and sending a Memorandum by each, four Waggon will apply with this and I woud have you stop others as they may be coming down you will be attentive that the Casks are in good Order, such as are not must be kept for Repair or Use here. If eight Waggon or more set out together, it is our Intention you send a Guard of two or three men with them. The Powder is to be delivered to Maj^r Benj^a Johnson of Frederick Town, each Waggon I suppose will carry 23 or 24 Barrels, a little better than a Ton Gross. I am &^{ca}
