The same came back endorsed as followes Viz^t

By the house of delegates June the 3^d 1697.

Wee have Reassumed our former debate of this matter & say that it was Represented to vs that the writt of Err^r was issued before execucōn served but that being now denyed wee have called for the writt of Err^r before vs by which together with the acc^t the Sheriffe gives of the time he arrested the party seemes still to be that the writt of Err^r was issued before Execucōn served as by the date of the writt of Err^r appears to vs and for further satisfaccōn therein wee have herewith sent the said writt of Err^r which was the reason of our former Resolve.

The further proceeding in this matter appears in the other p. 21
Journall of Council proceedings of this date.

Proposed that the minutes of every dayes proceedings both of the prov^{ll} & County Courts be constantly read over every night or morning by the Court & for the Court to be held afterwards the last Courte proceedings be read anew againe & inspected by the Justices that a due record of the same be kept.

It being signified to his Ex^{cy} that the Comittee appoynted in the matter about the Indians had drawne vp severall proposalls & made a finall Conclusion It is considered that the same be read before the whole Assembly that if in case any disputes should arrise thereabout the same might be ended in a Conference.
