Afterwards his Ex^{cy} was pleased to bespeake the Assembly in manner & to the effect following Viz^t

p. 51 M^r Speaker & you Gentlⁿ of the house of Burgesses. I thanke God that this Sessions is come to soe good an issue, this being now the third yeare since y^r first meeting together which by the Course of law would have put a period to this Assembly some time in September next. I am in his Ma^{tys} behalfe to thanke you for being Instrumentall in the making soe many good lawes which it's hoped will tend to the Glory of God, his Ma^{tys} hon^r & good of y^r Country being the three cheife and principall ends for which you were first and have hitherto beene called together And I thinke the Country is now finished with such a body of lawes as will answer those three ends if the same are put in due Execucōn without which they will prove vselesse ffor Lawes vnles put in Execucōn become but a dead Letter. Therefore do Recomend to you Gentlⁿ that are Magistrates to have a perticuler regard & care in that matter Hopeing there may be noe further occasion of calling another Assembly before next spring And what now remains is onely to let you know That in his Ma^{tys} name I doe dissolve you and therevpon they were dissolved

Thus ended this Assembly.
