

Lib. L. L. Resurvey shall adjudge, and this all to be required and the Number of Years to Commence when the Owner of the first Tract shall by a Iury Resurvey and Ascertain his bound according to this Act And if any man hold a Tract of Land by the side of a Creek or Branch and it be Described to begin att a Markt Tree by the Side of the said Creek, River or Branch and att the last is on that side to be bounded with the said Creek River or Branch, but it is Exprest from the said Markt tree to run up or Down the said Creek River or Branch a Certein number of Perches or a Certein Course which Course Declines from the Water Side an Runs into the Land and no Markt tree appointed for it to end att, in all Such like Cases the Owners of the said Land shall reverse his last line (Viz.) as Suppose the first Course is North one hundred Perches to the Branch Creek or River and the other West one hundred and Sixty perches and then South one hundred perches and then East or on a Streight line to the first Markt Tree he shall run from his first Tree West one hundred and Sixty perches and then North one hundred

p. 212 perches and then East unto the said Creek River or Branch and where the said East Line Intersects or falls into the water it shall Determine his Bounds and he shall hold from that Intersection by the water Side to the first Tree, but in this Case or any Cases Paralell if fifty p Cent will not Intersect the Branch Creek or River then the precise lines and Course to be the bounds thereof and the reversing of Lines shall Determine Bounds when the lines by the Water Side slants over the Creek River or Branch and in that Case the Creek River or Branch shall be the Bounds of such Tract and it shall not pass over as in the Second third and fourth Example is Demonstrated and the reason why fifty per Cent is allowed to reach the Creek River or Branch that if more is there will be no Coherence between the Creek and the Course. And if a Tract be Described to lye on a Certein side of a Creek River or Branch and begin att a Markt tree and run a Certain Course as Suppose North one hundred Perches up or Down the said Creek or River to another markt tree by the River side which second Markt Tree is known and really stands by the Water Side and make the breadth of the Land within fifty p Cent, there the second line supposeing East shall be drawn from the second Tree the Certein number of Perches supposing one hundred and fifty and from the end thereof South till it Intersect a line drawn also East from the first tree though the said East line last mentioned be more or less in this Case then fifty p Cent over or under and from that Intersection a Line drawn West to the first Tree, the Water the West and the South line shall be the bounds of such Tract
