

costs of suit on being nonsuited But as to that part of the Bill admitting People when sued to appear in their proper Persons and Bail given if required to confess Judgment without employing an Attorney We readily agree thereto As to the last Clause obliging the Attorney not to sue for his Fee till the Cause is finished We are afraid It will occasion Attorneys who have good practice to refuse poor men's Causes unless they pay them beforehand

The House Adjourns till to morrow Morning

Tuesday August 7th 1716

The Upper House Sate Present as Yesterday

Then was read at the Board a Letter from Charles Carrol Esq^r his Lordship's Agent directed to the honble his Lordships Council & dated Tuesday morning August the 7th, 1716.

May It please your Honours

I know his Lordship expects that the 15^d mentioned page the 14th shall be made payable to himself or what person he shall appoint to receive the same & agrees that 3^d thereof shall by a Clause be applyed for furnishing Arms & Ammunition &c.

The Words by him appointed Page 15th interlined were better left out and thereby more respect shewed his Lordship. In the last folio but one the Clause for reshipping tob^o is very unreasonable my Lord giving up his Whole Revenue in Consideration of the Duty, He expects it without Hazard for if his Lordship should agree to a Clause & a War should happen & a Tob^o Fleet taken his Lordship with his five Brothers & Sisters may want a Support for that year Which doubtless your House will think hard. p. 277

A Clause obliging the Clerks of the Provincial Court & the several Clerks of the respective Countys to transmitt yearly to his Lordship's Agent for the Time being a fair list of all Alienations recorded yearly in their Offices and that ex Officio & under a certain Penalty

This is what has occurred to me upon the cursory reading of the rough Draught of the Law & desiring your Honours will let me have the perusal thereof when It shall be fairly copied

I am your Honours humble Servant

Charles Carrol
