I can't help continuance touching his Lord^{ps} pecuniary Revenues Instructions relative you know has been sent by my Lord concern^s with admonitions from me to M^r Lloyd the Rec^r General, all to no purpose; of which disregard My Lord express's much dissatisfaction and resentment. Provincial People and others who have traversed the province during the last War have manifested Ill-usage Loss, and neglect committed upon his private property by vague management. the disobedience to his Instructions and the representations to him has brought upon his Lord^p determined resolutions, either to send from hence a person well-impowered to settle and adjust such his material concerns or else, to visit the province himself, and this next spring; the latter he seems greatly inclined to, of these his resolutions I will inform you the earliest I can. he intends no remove to you, But in like manner as did his father to Gov^r Ogle upon his arrival leaving you in the State & conditions as you were in upon his departure; relying on you as usual of your good Counsel, conduct, affection and service in all things during his residence.

I am with all Respect & Esteem
