

Liber C C
No. 22
p. 175

[Council to James Calhoun Esqr.]

Sir We send you by the Bearer Jonathan Parker 250 £ in new Money at 40 for 1 to 10,000 £. Pray let us know what has been done about M^r Smith's Flour and your Prospect of Purchasing.

Since writing the above, we have received yours of the 10th Our Proclamation continuing the Embargo, which Jonathan Parker carries up, will prevent any Interference between you and M^r Mathews and every other Person, as none of the prohibited articles can be exported without Permission. If we find we can, without Detriment to the State, give Licence to the Bank to export Flour, upon Application from them, we shall do it in such a Manner as will prevent the numerous Evils that would certainly result from a Competition between our State's Purchasers and others. If M^r Smith will permit us to take such of the Flour as is good, we request M^r Donnellan to receive it as before directed.

[Council to Jeremiah Jordan Esqr.]

Sir We received yours of the 20th Ult^o and are sorry to find you have on Hand so large a Quantity of Corn damaged, particularly at a Time when Provision is so extremely wanted for the Army. If it is in such a Condition that you could obtain new Corn for it in the Fall, it still may be proper to answer for the Army; if so, we request you to forward it and any other you have on Hand. Should any remain, in your Opinion, so much damaged as not to be proper to forward, we think it would be best to have it sold immediately. We request you to let us know whether you received our Letter of the 21st Aug^t & what you have done in Consequence of it and that you send to the Treasury immediately, whatever you have received.
