

Liber C C is defective inasmuch as the Remains of the Delaware Regiment are
 No. 22 included without any Discrimination. We request you to send us
 a Return as Speedily as you can.

[Council to His Exy Govr. Jefferson]

p. 202 Sir We received your Favor of the 26th Ins^t and can assure your
 Excellency, our Inclination to relieve your State from its present
 embarrassing Difficulties and to prevent the Attention of the Militia
 being diverted from a vigorous Opposition to the invading Enemy,
 will prompt us to render, most chearfully, every necessary Aid in
 accommodating the Convention Troops, when removed to Fort
 Frederick with what Provisions we can spare; but the eventual
 Measures taken by this State for supplying them, were only calcu-
 lated for a partial Subsistence, because we expected your State
 would provide Magazines, at or in the Neighbourhood of the Fort
 according to the Resolution of Congress referred to by your Ex-
 cellency

[Council to Capt. Philemon Warfield]

Sir We request you to send immediately 2 Barrels of Cannon
 & 2 Kegs of Musket Powder and that you employ your Cart for
 that Purpose.

[Council to James Calhoun Esqr.]

Sir Yours of the 25th Ins^t we have received. We think the
 Bread which M^r Smith would sell, is high and ought to be of the
 first Quality to command that Price; yet, as we are circumstanced we
 should be glad to secure at least 500 Barrels of it, and request you
 to purchase that Quantity, if to be had on the Terms you mention,
 and M^r Smith will wait for the Part to be paid in Continental,
 until the Sale of the Tobacco which we enclose, and which you will
 sell agreeable to our former Instructions, for Continental Money.
 You will advise us by the first Opportunity whether this and a
 further Quantity of Tobacco can be disposed of, if so, we shall
 have Occasion to draw Part of the Money out of your Hands to
 answer other Purposes.
