Adjourned till to Morrow Morning Nine of the Clock

Saturday Morning 28 September 1745

This House met again according to Adjournment

September
28

Present as Yesterday

The following Message is sent with the Journal of Accounts by Samuel Chamberlain Esq^r

By the Upper House of Assembly 28 September 1745

Gentlemen

His Excellency has been pleased to acquaint us, that he has disbursed the sum of £918..14.6½ towards Building the house designed for a Governor over and above what he has received of the Money appropriated by Act of Assembly for that Purpose, and that he has laid an Account thereof before your House as We do not find any allowance made to him on that Account, in the Journal and that We think it just and reasonable he should be reimbursed We hope You will be of the same Opinion and therefore return the Journal that an Allowance be made accordingly

As We are not satisfied why you have only allowed part of the Secretaries Account in this and the last Session and part of the Governors Account in this Session We hope You will rectify Your Journal by allowing the whole thereof

And there are several allowances for the Quantities of Tobacco mentioned in our Message of 1 of June 1744 to the late Lower House of Assembly, which We think must now be high time to Insert in the Journal
