

June 25 the £150, the whole acc<sup>t</sup> I have enclosed, hoping you will as soon as possible send money to discharge it, or the sum which I engaged to pay him in consequence of the order. I received your letter countermanding the march of the troop of light horse, with a request that they would with all possible dispatch equip themselves for the Field, with which I have acquainted them, & believe they are making every exertion in their power—we have procured a three years recruit in the room of the Drafted man—& sincerely wish the Clothing could be sent over, as they will not consent to leave this place before they are clothed.

I am sorry there is no money left in this Treasury as I am just return'd from Annapolis where I left all the money in my hands as Treasurer and if there was I could not pay your Order, as the Assembly have directed me not to pay any more Orders untill they shall direct me.

I am your mo: obed<sup>t</sup>
