We have the Honor to submit to your Consideration a Letter of the 30th ult^o just received from the Superintendent of the Finances.

[W^m Paca in Council to Col^o Samuel Smith]

Ibid.

Captⁿ Cox in the Flag Schooner Trimmer, has a Number of Prisoners on Board. From the good Character of the Owner of the Vessel, we have indulged the Captⁿ in the Liberty of landing; and as we cannot judge what would be a proper Walk, you will please to assign him one.

[W^m Paca in Council to Honble Intendant]

In our Letter of the 2^d Nov^r we gave our Opinion that all the Specifics collected in Virtue of the Act to raise the Supplies for the Year 1782, and the Act entitled An additional Supplement to the said Act, were liable, in the first Instance, for the Payment of one Year's Interest, due on Certificates adjusted agreeable to the Act relating to public Creditors; and we requested you to sell Specifics for the Discharge of the same, as the Interest became due. As there have been several Certificates presented to this Board, and as we think it of Consequence to public Credit, that there should be no Delay of the Payment of Interest, we must now request you to lodge Money in the Treasury from Time to Time for the Payment of the Interest as it becomes due.
