By the Upper House of Assembly 29th. Oct.^r 1763.

Gentlemen

p. 130

As we observe by your Message of the 25th that you admit the Propriety of some of our Remarks on the Inspection Law communicated to you the 18th Inst.:' and that you are Willing to pay due regard thereto in framing a New Bill, We shall, in order to prevent the session being protracted to such a Length as it might be, were the two Houses to enter into a dispute by Messages about the expediency of the Several alterations which both we and you have mentioned as proper to be adopted in a new Inspection Law, Communicated to you in a few Words our Opinion with regard to the Alterations proposed. Altho we are Still of Opinion that it would be for the Advantage of the Planter to Shorten the time for closing the Inspection in the manner we proposed, as by this Regulation the Damage attending a Winter Passage would be prevented, the Expence of Freight consequently lessened, the Benefit of the European Markets Secured, and of Course the Produce of the Tobacco the Sooner Answerable to the orders of the Consignor, however should You upon mature Consideration choose to extend the time to the 20th. of July we consent that the 20th of July should be Subsited in the Place of the last of June If You have any reason to think that by leaving out the Seventy Second and Seven following Sections or the One hundred and thirty eighth, Any Artfull designing Creditors may take the Advantage of an honest and unwary Debtor it is our own desire that either those Sections may be continued or that some Proper Clause may be inserted in a new Bill that will effectually prevent the Success of such villainous attempts as our Sole design in Leaving them out was to Shorten the Law as much as Possible,
