N. B. If it should be objected that there has been another War before this, whilst M^r Ross was Clerk in which there might be a great Increase of Service, it is answered that the Seat of that War, not being on this Continent, not much public Business arose here from it & as a great Part of 19,162 arises from frequent Proclamations to call & prorogue the Assembly during the War and arising therefrom tho' they are not considered as such it makes the Yearly Amount supposed much more than it otherwise would be & will fully make up for that Objection.
