

work for the type bill that I supported. The same thing applies to some of the other measures you mentioned. Implied consent — this has been in the Legislature for years and years, so why should its failure for maybe the fourth or fifth time be laid to the Governor's program? It's a bill I've taken on because I think it's good, and will continue to work for it. Some of these things have to be presented several times before they can get through.

STATEMENT OF SUPPORT FOR OVERSEAS AID CONTRIBUTIONS

March 21, 1968

In the spring of each year, America's three great faiths — Protestant, Catholic and Jewish — appeal for contributions to finance vital and voluntary overseas aid programs.

To the hungry and homeless, the disabled and dispossessed this aid brings hope and proof of America's concern and commitment to the individual. Through voluntary contributions, our nation affirms in deed, as well as word, their compassion for those in need and their passion to create a better world through the paths of peace.

In a time when our nation's critics abroad decry "The Ugly American," the work supported through our three great faiths reveals the generous, quiet, dedicated American.

It is my hope that the 1968 springtime campaign receives unqualified support and achieves unprecedented success throughout our State and nation.

NEWS CONFERENCE

March 21, 1968

There was no opening statement by the Governor.

Questions and Answers

Q. Governor, did you meet with the Baltimore City senators this morning with regard to the four new judges that have been requested for the Supreme Bench of Baltimore City?
