

On motion of Mr. Crothers,
Said bill was made the Special Order of the Day for
Tuesday, March 20th, at 12.20 P. M.

Mr. Betts submitted the following

REPORTS:

City Hospital.

We visited the City Hospital of Baltimore and find it doing a grand work. The Pasteur treatment is found very efficacious, and they are doing work in other branches of treatment. Too much cannot be said concerning the management of this hospital by the Sisters of Mercy, who devote their lives to the care of sick, in their charge, and also their efficient management of the hospital; and also the abilities of the physicians. And we take great pleasure in commending this institution, and ask for the desired appropriation, \$5,000.

Maryland General Hospital.

The committee find this to be one of the finest institutions of its kind in the State.

The general management are of the highest order, and no one who has applied for admission has ever been turned away. Notwithstanding they have only one free bed for each county and Legislative district, and we cheerfully recommend the appropriation which is asked for its maintenance be allowed.

Baltimore University.

Your committee also visited the Baltimore University and found that the general principle of the management are of the highest order, and no one who has applied for admission has ever been turned away notwithstanding the cramped condition they are in, for more room, and which is necessary to further their worthy purposes.

They ask for an appropriation of \$2,000 which your committee considered favorable.

Western Maryland Hospital.

We visited this institution which is situated at Cumberland.
