Mr. Digges, from the committee, brings in and delivers to the speaker the following report: THE committee to whom was referred the petition of Dennis Griffith, praying to be released from the loan made him by the state for the purpose of executing the map of Maryland, reports that they have attentively examined the same, and find, from a recurrence to the journals of former sessions, that the legislature, impressed with just opinions of the advantages and utility of the work, loaned unto the petitioner the sum of one thousand pounds, in aid of an undertaking promising such benefit and use to the state; that the petitioner, at great trouble, expence and difficulty, accomplished the map of Maryland, which the committee think a work of great merit, ornament and utility. The committee find, from a statement made by the petitioner, the expence in making and striking off his map amounts to four thousand pounds current money, exclusive of the trouble and labour necessarily produced by a work of such extent and difficulty, and that the emoluments arising from the sale have been small, inadequate, and greatly below the most reasonable and moderate expectations from an undertaking of such great and general utility.

The committee avoid giving any opinion on the prayer of the petition, but that the sense of the house may be fairly taken, they submit the following resolution:

RESOLVED, That the treasurer of the western shore be and he is hereby authorized, on the application of Dennis Griffith, of Anne-Arundel county, to deliver up the bonds of the said Griffith, due from him to the state for money loaned him in completing the maps of Maryland; and that the money due on said bonds be and is hereby relinquished.
