

ESTIMATES:

1st. Of the cost of the Judiciary system, hereby proposed:—	
4 Judges of the Court of Appeals at \$2,200 each,	\$8,800 00
11 District Judges at \$2,500 each,	27,500 00
	<hr/>
Whole cost per annum, when in full operation,	\$35,300 00
2nd. Of the cost of the present Judiciary of this State, including the supposed cost of 269 Justices of Magistrates' Courts, which are reported to be now in commission, as estimated by the committee on Judiciary,	
	<hr/>
	\$98,100 00
3rd. Of the cost of the system reported by the said committee, as estimated by themselves,	
	61,000 00
Add for one Judge for Howard Co., now established,	\$2,000 00
	<hr/>
	\$63,000 00

The system now submitted proposes to do the same work for a sum, scarcely more than half the cost of the system reported by the committee, and a fraction only above one-third of what the committee estimate to be the cost of the present system; and it is submitted with a far greater probability of having it well and promptly done.

But this allusion to the estimated cost of the present system, must not be understood as an admission of the correctness of the committee's estimate; on the contrary, that estimate, is believed to be extravagant and far above the actual cost. The committee best understand the cost of their own scheme, and therefore their estimate of its cost \$61,000, is assumed to be correct.
