

1 years. We have not accomplished the aims and objects
2 of this proposal, and I suggest to you that we cannot
3 mandate the General Assembly of this state to do in any
4 session of the forthcoming General Assembly what mankind
5 has not been able to do throughout his entire period.

6 Worthy as these objects are, I suggest to you
7 that to put this in this Constitution will be in a
8 sense to mislead the people of this state into thinking
9 that we have done something for them which each Delegate
10 in his heart knows, in fact, we have not been able to do
11 and could not do if we sat here for another ten years.

12 There was earlier talk in connection with the
13 consumer protection about the products which are frequently
14 labeled as giant quart size. I suggest to this Convention,
15 to place in this Constitution language as lofty in
16 purpose, as meaningless in execution, and as impossible
17 of performance as this one is to label this Constitution
18 the giant quart size.

19 As one Delegate, I am not prepared to submit
20 to the people a document which I consider would be as
21 misleading as this document would be if it held out the
